

DM28 BiPAP/30ST-BP

The most professional and comfortable choice for personalized treatment

With superior hardware and software technology, DM16T is able to respond immediately to the needs of patients to ensure the best therapeutic effect. Innovative algorithms and humidification systems provide patients with more comfortable user experience.

FEATURES & ADVANTAGES

Interactive design

High-sense CTP with more effective and straightforward operations

Algorithm

More advanced algorithm, more excellent experience.

Algorithm

Built-in humidifier with better heating rate and better anti-backflow device.

Data management

More comprehensive data management system - Data Cloud and mobile APP.

BASIC INFORMATION

Model	DM28-30ST-BP
Dimension	271.5mm(L)*143mm(W)*139.5mm(H)
Weight	1800g (with humidifier) 1600g (without humidifier)
Color	Black
Display	5 inch LCD/5 inch touch LCD
Noise	<28dB(A)
Power supply	Input:100-240VAC, 50/60Hz, 1.5A; Output:24VDC,3A

ACCESSORIES

TF card	4GB SD card, built-in ROM(optional)
Package	Carrying bag
Air tubing	22mm, 1.8m long
Mask	Full face mask
Others	Air Filter,Power Adaptor, User Manual,Power Cable, Quick Start Guide,Packing List

HIGHLIGHTS

Alert function	Alert for Mask air leak/High pressure/ High temperature/Humidifier leakage
Accessory replacement reminder	For mask, air tubing, humidifier, filter periodically.
Pressure release	Yes (1-3 levels)
AVAPS Control	Yes
Respiration frequency adjustment	Yes
Target Tidal Volume	100ml~2000ml
I/E sensitivity adjustment	Yes (1-5 levels)
Automatic pressure titration	N/A
Altitude compensation	Automatic
WIFI	Yes

THERAPY PARAMETER

Therapy mode	CPAP, S, T, S/T
Pressure Range	4-30cmH ₂ O
Pressure Increment	0.2cmH ₂ O
Languages	Multi-languages
RAMP time	0-60 min
Data storage	4GB(data of 4-year-long)
Data Analysis software	AirTreat™
